Annual e-Governance report Academic report

Academic year 2021-22

Nirmala college of Pharmacy, Muvattupuzha has introduced e- Governance into academic and administrative areas along with finance in academic year 2021-22, to ensure accountability, efficiency and transparency in all fields.

Nirmala college of Pharmacy associated with Ixian informatics Pvt LTD to introduce Campus7 software to manage the human resource, administrative and academic management, student support and finance.

Administration:

The college administration depends on large number of documentations, which in turn utilize a huge quantity of papers. The campus7 software helps a lot to reduce such paperwork. It is also supporting green campus initiatives by avoiding a paper wastage.

Academic:

The classroom upgraded with ICT tools for the better understanding is now strengthen by the introduction of ERP software. The attendance, assignment, exam schedules and many more activities are done though this software. It enhances the transparency and accountability in academic side. The students are able to get the study materials and view their attendance, internal marks etc. through this software. Subject audit via ERP software will improve the accountability of work done by the staff members.

Library:

The semi-automated library facilities help the students to explore their interest in higher level. To support the enthusiastic students, digital library makes a platform to access various online journals. The students can access the question bank, study materials, previous year question papers etc. from the digital library.
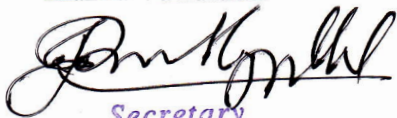

Students support:

The students are also got access in campus 7 software to see the academic events, exam schedules, internal marks, attendance etc. The facility to report the grievances in a blinded way via this software is also provided. Students are able to update their profile by updating their achievements and proficiency awards, make a healthy competition and accountability. Mentors can see the complete profile of their mentors at any point of time, so that effective mentoring is also make possible using this software.
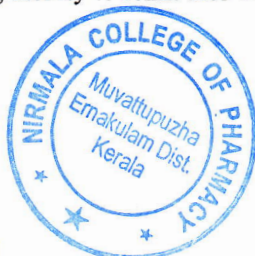

Examination:

All exam related activities can be planned and propagated through this software. The exam schedules, duty assignments, internal mark preparation etc. can be done through this software.

Finance and accounts:

The college relies on the values of transparency in financial transactions. The direct payment during the pandemic period is overcome by creating facility to remit fees via through online modes, make a safer mode of financial transaction.
