Innovative Teaching Methods

Student-centric learning methods are an integrated as part of the pedagogy. All departments conduct innovative programs which stimulate the creative ability of students and nurture their problem-solving skills and ensure participative learning.

Student centric teaching methods practiced

- **Experiential learning**

Project

Field visit

Experiments

Instrument handling

Demonstrations, museum and model pharmacy

- **Participative learning**

Role play

Group discussion

Interactive class

Peer learning

- **Game based learning**
- **Service learning**
- **Flipped class room**
- **Learning by problem solving**
- **Brain storming**
- **Interactive classrooms and ICT-enabled classes**
- **Practical sessions on contents beyond the syllabus**
- **Personalized learning**
- **Inquiry based learning**
- **Interdisciplinary classes**
- **Patient centric and evidence based learning**
- **Classes by intern students**
- **Involvement of students in setting question banks mapped with bloom taxonomy and answer key**
- **Self directed learning**
