Submitted to

THE NATIONAL ASSESSMENT AND ACCREDITATION COUNCIL

MANAGEMENT OF THE VARIOUS TYPES OF DEGRADABLE AND NON- DEGRADABLE WASTE

7.1.2. Management of the various types of degradable and non- degradable waste

- The college has an efficient waste management system to handle various types of waste. Our system operates on the principle of Reduce, Reuse and Recycle.

Management of solid waste

- The institution has signed an **MOU with Green Evotech Pvt. Ltd.** for the disposal of solid waste.
- The segregation of biodegradable and non-biodegradable waste is carried out on site.
- For that, **separate, labelled waste bins** are provided for each classroom, lab, office, and corridor.
- The food waste generated in the college and hostel is used in **biogas plant**.

Biomedical waste management

- A separate, labelled bin has been set up for biomedical waste. This type of waste is disposed of through **incineration**.

Chemicals Waste

- Each waste generated in each lab is individually packed and sent to contractor for disposal.

E- waste

- The generation of e-waste is reduced through careful use and regular maintenance of electronic devices. Any E-waste generated will be sending to contractor for disposal.
